Pile Driving Contractors Association
and
Pile Dynamics, Inc.

Present

Seminar on Deep Foundation Integrity Testing and Wave Equation Analysis
April 11 (Wed), 2018

High Strain Dynamic Foundation Testing Workshop
April 12 and 13 (Thu - Fri), 2018

at the
DoubleTree by Hilton Orlando Airport
5555 Hazeltine National Drive
Orlando, Florida 32812
407-856-0100
Registration Starts at 8:00am

Wednesday, April 11, 8:30am – 5:00pm
Seminar on Deep Foundation Integrity Testing and Wave Equation Analysis

Who should attend: Geotechnical, structural and construction engineers; owners, contractors and other professionals involved in the design, construction and specification of deep foundations.

- This seminar is suitable for those new to the field of Foundation Testing and Analysis, and includes an overview of non-destructive testing methods (integrity and load testing) and their applications.
- It is suitable also for those specifying the testing to gain basic understanding for assessing the results presented in reports.
- This seminar is suitable for those needing an understanding of wave equation analysis methods.
- Those attending the Workshop that follows this Seminar are strongly encouraged to attend this review of wave equation background materials.

Learning objectives: At the end of the seminar, attendees will be able to:
- Select an appropriate method of integrity assessment of deep foundations for a particular application.
- Review reports of integrity and dynamic load testing of deep foundations conducted by others.
- Run a basic wave equation analysis of pile driving.

Program (subject to change)

8:00    Registration and Breakfast
8:30    Wave Mechanics – Basics
9:30    Non-destructive testing – High and Low Strain
10:15   Break
10:30   Non-destructive testing – Crosshole Sonic Logging
11:00   Thermal Integrity Profiling
11:45   PDA Applications
12:15   Lunch
1:15    Wave Equation Background
2:15    Wave Equation Workshop: Bearing Graph, Insp. Chart
3:00    Break
3:15    Wave Equation Workshop: Bearing Graph, Insp. Chart-cont’d
3:45    Wave Equation Workshop: Driveability
5:00    Adjourn

Digital/ Hard copy of the Presentation:
- All training material will be available digitally for download prior to the event. It is suggested that attendees download this material to their laptop and bring their laptop, or print the training material and bring their own hard copy. A colored, 3 slide per page printout may be requested from PDCA up to two weeks prior to the seminar ($100 charge will apply). Please contact PDCA at debbie@piledrivers.org if you want PDCA to provide the hard copy.
- Attendees are encouraged to use their own laptops for the GRLWEAP and CAPWAP® sessions; charging stations will be available.
Thursday, April 12, 8:30am – 5:00pm
High Strain Dynamic Foundation Testing Workshop Part 1

Who should attend:
- Users of the Pile Driving Analyzer® (PDA) system and CAPWAP® software interested in sharpening their skills.
- Engineers, foundation testing professionals, students and professors already familiar with the basic concepts of deep foundation dynamic testing and analysis.
- Professionals who desire to have a basic understanding of the dynamic test results being presented to them.
- Those interested in taking the Dynamic Measurement and Analysis Proficiency Test*

Learning objectives:
At the end of this two day workshop attendees will be able to:
- Operate the PDA in a manner conducive to acquiring good quality data
- Assess pile bearing capacity, pile driving stresses, hammer performance and pile integrity by various methods
- Avoid pitfalls when analyzing PDA data with the CAPWAP software
- Interpret PDA testing and CAPWAP software results
- Describe the soil-model used in CAPWAP
- Prepare the input for CAPWAP
- Review options for CAPWAP analysis and output
- Calculate bearing capacity and its distribution for driven piles from impact records

Program (subject to change)

8:00 Breakfast
8:30 Wave Mechanics for PDA testers (90 min)
10:00 Break
10:15 PDA Testing – Proper Practices
12:30 Lunch
1:15 Dynamic Testing of Drilled Shafts and Augered Piles
1:30 Testing Economics
3:15 Break
3:30 Set-up
4:15 PDA Workshop: Integrity, Stresses, Energy
5:00 Adjourn

Digital/ Hard copy of the Presentation:
- All training material will be available digitally for download prior to the event. It is suggested that attendees download this material to their laptop and bring their laptop, or print the training material and bring their own hard copy. A colored, 3 slide per page printout may be requested from PDCA up to two weeks prior to the seminar ($100 charge will apply). Please contact PDCA at debbie@piledrivers.org if you want PDCA to provide the hard copy.
- Attendees are encouraged to use their own laptops for the GRLWEAP and CAPWAP® sessions; charging stations will be available.
Friday, April 13, 8:30am – 5:00pm
High Strain Dynamic Foundation Testing Workshop part 2

Program (subject to change)

8:00   Breakfast
8:30   PDA Workshop: Capacity Calculation
9:15   CAPWAP Background
10:45  Break
11:00  CAPWAP Examples
12:30  Lunch
1:15   CAPWAP and Refined Wave Equation
1:45   iCAP® – Instant Signal Matching
2:15   PDA Data Quality – Examples
3:15   Break
3:30   Dynamic Measurement and Analysis Proficiency Test *
5:00   Adjourn

Digital/ Hard copy of the Presentation:
- All training material will be available digitally for download prior to the event. It is suggested that attendees download this material to their laptop and bring their laptop, or print the training material and bring their own hard copy. A colored, 3 slide per page printout may be requested from PDCA up to two weeks prior to the seminar ($100 charge will apply). Please contact PDCA at debbie@piledrivers.org if you want PDCA to provide the hard copy.
- Attendees are encouraged to use their own laptops for the GRLWEAP and CAPWAP® sessions; charging stations will be available.

A Certificate of Participation documenting the number of hours of instruction (PDH) will be provided. Check with your engineering board of registration for their continuing education requirements.

* At the end of the High Strain Dynamic Testing Workshop participants may take a multiple choice Dynamic Measurement and Analysis Proficiency Test which will take less than 1-½ hours to complete. The test will cover the theory of Wave Mechanics, Case Method (PDA) equations, data quality assessment, data interpretation and basic CAPWAP analysis. The test is designed for those with experience in using the Pile Driving Analyzer® system and CAPWAP to perform High Strain Dynamic Foundation Tests. The best preparation for the test is work experience following an initial PDA training. The workshop will refresh the participant’s theoretical background and be a reminder of some important points. Those taking the test are advised to study “Appendix A” and “Helpful Hints” of the PDA manual, review some of the EXAMPLE data provided with the PDA, and read the CAPWAP background material. These materials are supplied with PDA purchases. Those without access to the manuals and examples should please contact softwaresales@pile.com in advance of the test date. For more information about the Proficiency Test website: www.PDAProficiencyTest.com.

A Certificate of Proficiency in High Strain Dynamic Pile Testing will be awarded to those who pass the test. The Level indicated on the Certificate is dependent on the score achieved on the test. Those who do not pass the test will receive full credit of test registration fee to be applied towards retaking the test at the next opportunity.

*Please note it will take up to two weeks to receive your exam results*
Workshop and Seminar Lecturers

Garland Likins, P.E., M.ASCE, is the senior partner and past president of Pile Dynamics, Inc., a manufacturer of quality assurance products for deep foundations. He is a licensed Professional Engineer in Ohio and a former principal of GRL Engineers, Inc., providers of deep foundation testing services. In his 45 years since participating in the original dynamic pile testing research at Case Western Reserve University, Garland has performed countless field tests and directed the development of several field testing devices for deep foundations. He is active in committees for ASTM, ADSC, DFI, and PDCA. He authored numerous publications and frequently lectures on deep foundations.

Ryan Allin, P.E., is a senior engineer and partner in GRL Engineers and Pile Dynamics. He has a B.S. in Civil Engineering from Cleveland State University and has achieved Expert level on the PDCA/PDI Dynamic Measurement and Analysis Proficiency Test. After several years performing the entire range of services offered by GRL throughout the United States and in international offshore projects, Ryan is currently responsible for all GRL’s educational programs for foundation testing professionals. In that capacity he has lectured on numerous seminars, webinars and workshops on foundation testing and has co-authored papers on the subject. Ryan is a member of the American Society of Civil Engineers and a registered professional engineer in Ohio, Pennsylvania, West Virginia, Delaware and Kentucky.

Hotel Reservations

Attendees are responsible for making their own hotel reservations.

**DoubleTree by Hilton Orlando Airport**

Special group rate of US $149 plus tax, for a single or double room. To make reservations please call the hotel at 407-856-0100 and identify yourself as part of the Pile Driving Contractors Group block by referring to **Group Code: PDW**. You may also make reservations online by clicking [HERE](#). **You must make your reservations by Friday, March 16** to receive the special group rate.

**Parking Fees:**

- Overnight Self-Parking: $8.00 per day (discounted from $14.00)
- Day Self-Parking: $10.00 per day
- Overnight Valet Parking: $19.00 per day
- Day Valet Parking: $10.00 per day

The hotel provides complimentary guestroom wireless internet access, complimentary use of fitness center, complimentary shuttle for individuals to and from the Orlando International Airport (MCO), and complimentary shuttle for individuals traveling within 2 miles of the hotel.
Registration

For Online Registration go to the **PDCA Website**, or Mail, Fax, or Email this completed registration form by **Monday, March 26** to:

Pile Driving Contractors Association  
33 Knight Boxx Road, Suite 1  
Orange Park, FL 32065  
Phone: 904-215-4771  
Fax: 904-215-2977  
debbie@piledrivers.org

**Early Bird Deadline – Monday, March 12, 2018**

**REFUND POLICY:** Cancellations prior to three weeks before the event will receive a 50% refund. Following this date, there will be no refunds, however name changes are permissible. There will be no transfer of funds to the next course permitted.

For more information contact Debbie Schmidt, Director of Events at PDCA: at 904-215-4771 or 888-311-7322 or by email at debbie@piledrivers.org

**Registration Fees (includes: course notes, breakfast, AM/PM breaks and lunch):**

- Seminar on Deep Foundation Integrity Testing and Wave Equation Analysis $300.00
- High Strain Dynamic Foundation Testing Workshop $550.00
- Dynamic Measurement and Analysis Proficiency Test (No Discounts) $200.00

*If you do not pass the test you are allowed one (1) retake of the test at no additional charge at the next course

- $50 discount on each Seminar/Workshop for Early Bird registration prior to **March 12, 2018**
- Government Employees - $50.00 discount on each Seminar/Workshop
