Edgen Murray	71
Essve Tech	77

EDITOR'S NOTE:

An article by the President of Pile Dynamics, Garland Likins, appeared in the Q2 issue of *PILEDRIVER* (*The 2010 AASHTO LRFD Resistance Factors*, pp 43-51). Unfortunately, there was a typo on Table 2: 2010 resistance factors (R. F.), factored loads for the example case, on p. 49. The Number of Piles required when the Determination method is Dynamic formula (Gates) is 35, not .5. We apologize for this error.

On the Cover: Aerial East Bound and Existing Pier Caps for the 1-80 Widening over the Meander Reservoir by The Great Lakes Construction Co. (submitted by Jeremy Levenson and Randy Radel, GLC)
